attending Battle and
Calvin Donaldson
receive bus service**

Howard Connect transforms the traditional understanding of middle school through authentic learning experiences and fostering curiosity, collaboration, equity, and a community of love and joy. Students engage in project-based learning for core-content areas with personalized reading and math instruction.

Six unique “collaboratory spaces” provide students with the opportunity to develop 21st century skills through visual and culinary arts, STEM, music production, robotics and other real world challenges. Students choose how to extend their learning and creativity through a daily Genius Period.
